

# Comprehensive SEO/AEO/GEO Report

|                       |                                                                               |
|-----------------------|-------------------------------------------------------------------------------|
| Target URL/Page:      | <a href="https://audesto.toolchunks.com/">https://audesto.toolchunks.com/</a> |
| Audit Scope:          | Single Page Audit Block                                                       |
| Date Compiled:        | August 24, 2026 - 07:10 PM                                                    |
| Target Keyword focus: | white label seo audit tool                                                    |

## Global Benchmark Performance Indices

## Projected Growth Path (6-Month Optimization Plan)

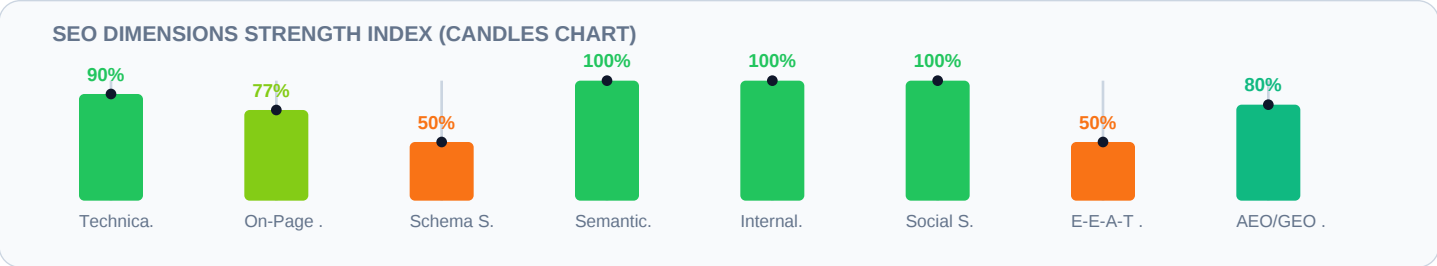

## Audit Health Parameters Summary

### EXECUTIVE ANALYSIS BRIEF

This executive analysis evaluated the target page against 170+ SEO, GEO, and search crawler criteria. Our analysis engine at Your Agency Name identified **0 critical issues** requiring immediate revision, **9 medium warnings** limiting indexability, and **20 growth opportunities** to enhance schema alignment. The page successfully passed **147 performance parameters**.

### SEO Dimension Strength Index (Candles)

### Strategic Audit Dimension Breakdown

| Audit Dimension          | Analysis Result                              | Optimization Level          |
|--------------------------|----------------------------------------------|-----------------------------|
| Technical SEO            | 6 issue(s) detected · 56/62 checks verified  | <div><div></div></div> 90%  |
| On-Page SEO              | 11 issue(s) detected · 37/48 checks verified | <div><div></div></div> 77%  |
| Schema Structured Data   | 1 issue(s) detected · 1/2 checks verified    | <div><div></div></div> 50%  |
| Semantic Content Depth   | 0 issue(s) detected · 7/7 checks verified    | <div><div></div></div> 100% |
| Internal Linking         | 0 issue(s) detected · 1/1 checks verified    | <div><div></div></div> 100% |
| Social SEO / Meta Tags   | 0 issue(s) detected · 3/3 checks verified    | <div><div></div></div> 100% |
| E-E-A-T Authenticity     | 1 issue(s) detected · 1/2 checks verified    | <div><div></div></div> 50%  |
| AEO/GEO Engine Alignment | 10 issue(s) detected · 41/51 checks verified | <div><div></div></div> 80%  |

### Warnings & Recommended Optimizations

1

**WARNING 1: Entity relationships (people, places, organizations)**

■ **Warning Page URL:** <https://audesto.toolchunks.com/>

Entity relationships are weak or unlinked in schema metadata.

**Recommended Action:** Ensure your JSON-LD links the Author (Person) as a member or employee of the Publisher (Organization).

2

**WARNING 2: Clear content structure**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Warning: Page headings skip structural hierarchies (e.g. H1 directly to H3).

**Recommended Action: Re-arrange headings to follow strict logical hierarchy (e.g. nested H3 must only sit inside an H2).**

3

**WARNING 3: Last updated timestamp**

■ Warning Page URL: <https://audesto.toolchunks.com/>

No explicit 'Last Updated' indicator found.

**Recommended Action: Include a 'Last Updated: [Month, Year]' label near your main heading.**

4

**WARNING 4: Internal Inbound Pathing Density**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Detected 1 internal anchor links inside body content container.

**Recommended Action: Incorporate at least 3-5 hyperlinked contextual references linking to other relevant sub-pages.**

5

**WARNING 5: Meta Description Length**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Meta description length is 237 characters.

**Recommended Action: Keep meta description under 160 characters to prevent search engines from truncating it.**

6

**WARNING 6: H1 Keyword Alignment**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Your primary H1 ("Start a White Label SEO Audit") does not contain the focus keyword "white label seo audit tool".

**Recommended Action: Incorporate your target keyword "white label seo audit tool" naturally inside your primary H1 tag.**

7

**WARNING 7: Heading Hierarchy Consistency**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Discovered nested headings that skip levels (e.g., an H3 placed directly under an H1 without an intermediate H2).

**Recommended Action: Review heading nested levels. Ensure headings nested within sections do not skip numbers (e.g. always place H2 under H1, and H3 under H2).**

8

**WARNING 8: Excessive Javascript File Weight**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Document embeds a large amount of scripts (16).

**Recommended Action: Consolidate or defer script loading to decrease third-party render delays.**

9

**WARNING 9: Excessive DOM Tree Depth**

■ Warning Page URL: <https://audesto.toolchunks.com/>

Warning: Page code is very long and likely has highly nested DOM elements.

**Recommended Action: Refactor UI code. Minimize wrapper divs and leverage flat grid structures to improve rendering speeds.**

## Top Successful Parameters Found

|   |                                                                                                           |
|---|-----------------------------------------------------------------------------------------------------------|
| ✓ | <b>PASSED CHECK: Product schema (when relevant)</b><br>Product or pricing/offering structures discovered. |
| ✓ | <b>PASSED CHECK: HowTo schema</b><br>HowTo instruction blocks or logical sequential steps detected.       |
| ✓ | <b>PASSED CHECK: Organization schema</b><br>Organization details are declared to search crawlers.         |
| ✓ | <b>PASSED CHECK: Article schema</b><br>Article or content structured schema successfully declared.        |
| ✓ | <b>PASSED CHECK: Author schema</b><br>Author metadata schema and attributes parsed successfully.          |
| ✓ | <b>PASSED CHECK: Breadcrumb schema</b><br>BreadcrumbList schema found, clarifying hierarchical location.  |
| ✓ | <b>PASSED CHECK: FAQ schema</b><br>FAQ schema (FAQPage / Question) discovered in JSON-LD scripts.         |
| ✓ | <b>PASSED CHECK: Review schema</b><br>Review or AggregateRating schemas found.                            |

## Google PageSpeed Insights (Lighthouse)

MOBILE STRATEGY METRICS & SCORECARD

|                               |                             |                                |                             |
|-------------------------------|-----------------------------|--------------------------------|-----------------------------|
| Performance Score:            | <div><div></div></div> 80%  | Accessibility Score:           | <div><div></div></div> 100% |
| Best Practices Score:         | <div><div></div></div> 100% | Lighthouse SEO Score:          | <div><div></div></div> 100% |
| First Contentful Paint (FCP)  | 0.8 s                       | Largest Contentful Paint (LCP) | 1.7 s                       |
| Cumulative Layout Shift (CLS) | 0.00                        | Total Blocking Time (TBT)      | 105 ms                      |
| Speed Index Speedometer       | 1.2 s                       | Time to First Byte (TTFB)      | 201 ms                      |

- Top Lighthouse Opportunities (Potential Savings):
- **Eliminate render-blocking resources** (Potential savings of 0.15 s)  
Resources are blocking the first paint of your page. Deliver critical JS/CSS inline or defer.
  - **Reduce HTML payload size** (328.6 KB payload)  
Total document size is 328.6 KB. Compress text or remove bloated inline scripts.
- Lighthouse Diagnostic Findings:
- **Avoid an excessive DOM size** (1214 elements)  
A large DOM increases memory usage and style calculation times.
  - **Server response time (TTFB)** (201 ms)  
Keep main document TTFB under 0.8s.
